

## CLS Pandemic/COVID Plan

2022-2023

As we plan for the upcoming school year, we are committed to being responsible in order to keep our students, families, and staff safe. We will continually monitor guidelines from the MDH and MDE, along with CDC and DHS guidelines regarding best practices for schools. We will continue to follow the MDH guidelines for isolation and quarantining when an individual tests positive for Covid-19 or is in close contact with someone who tests positive.

We also want to ensure best practices for your child's education. At this time, there are no restrictions or special requirements in our regular school operations. We do recommend that if your child is not feeling well, that you keep them home and monitor their health. Please remember that if your child has a fever (100.4 or higher) they may not attend school until they are fever free for 24 hours without taking any fever reducing medications.

***Note: This comprehensive plan is dynamic and may change at any time. Families and CLS personnel will be notified when significant changes occur due to unforeseen COVID circumstances or new mandates are issued.***
